Expenditure History

Montana Arts Council Funding History

Reasons for Expenditure Growth/Change

- General Fund – the average growth rate for general fund expenditures was –0.6 percent for the period of 2000 through 2008, primarily because funds from the Cultural and Aesthetics Trust Fund and Lodging Facilities Use Taxes were used in FY 2003 to offset general fund costs. The legislature approved increased general fund support of MAC beginning in FY 2004.
- State Special Fund – the expenditures funded by state special funds increased by 4.8 percent overall for the period of 2000 through 2008. Changes from year to year are mostly due to the varying amounts of support from the Cultural and Aesthetics Trust Fund described in the preceding paragraph and the subsequent reimbursement of the majority of the funds used to purchase Virginia and Nevada cities in FY 2006 and FY 2008. Lodging facilities use taxes were also provided in FY 2003 to offset a reduction in general fund support to due financial constraints.
- Federal Fund – federal funds vary depending upon grants received from the National Endowment for the Arts, which primarily fund grants to Montana communities.

Agency Functions, State Purposes, & Customers Served

The agency is structured to perform certain functions in support of general state government purposes. The following lists the major functions, purpose of provision of the functions, and primary customers served.

State Purposes	Major Agency Functions	Customers

How the Legislature Can Effect Change

In order to change expenditure levels and/or agency activity, the legislature must address one or more of the following basis elements that drive costs.

In order to change expenditure levels and/or activity, the legislature might address legislation:

- Governing the existence, definition, and funding of the Montana Arts Council
- Impacting the council staff such as consultation with and support of local communities; applying for, accepting and expending grant funds; and providing services for the educational community
- Relating to the Cultural Trust

The legislature is less likely to control:

- Federal legislation or funding for the arts
- Initiatives or legislation responding to citizen action
- Growth in web-based or long distance access to information and/or grant applications, or other changes in technology that serves the art community
- The number of Montana citizens needing this service from year to year
- Economic changes related to costs of utilities, rent, and transportation

Statewide Factors with Impact

In addition to the factors above, a number of factors common to many agencies will also impact changes in expenditures over time.

Because the Arts Council serves Montana and its art community, personal service costs are the primary influence that drives expenditures. These factors include the state pay plan and benefits, workers' compensation, and unemployment insurance.

Other factors driving expenses include changes in statewide fixed costs such as inflation/deflation and the cost to maintain and remain current with technology.
